### **WESTFIELD VALLEY FAIR'S NEW CONTROLLED PARKING PLAN**

On February 8, 2022, Westfield Valley Fair will be introducing a new controlled parking plan.

Valley Fair's **controlled parking plan** is being introduced as part of **a broader focus on security** at the shopping center. We are doing our utmost to ensure safe, easy, and convenient access for our customers.

In addition, the new controlled parking plan is designed to limit the parking inconveniences experienced by Valley Fair customers as a result of the substantial number of vehicles left onsite each day by individuals heading off to work elsewhere in the Silicon Valley community. To provide feedback, please click [here](#)

The plan keeps **the first two hours of parking at Valley Fair free of charge**, with company research showing that this will accommodate nearly 80% of existing customer visits.

Fees: 0-2 hours FREE; 2-3 hours \$1; 3-4 hours \$2; 4-5 hours \$3; 5-6 hours \$4; 6-7 hours \$5; 7-8 hours \$6; 8-9 hours \$7; 9-10 hours \$8; 10-11 hours \$9; 12+ hours a maximum daily rate of \$10.

**Find a Pay Station:**

## **PARKING ACCOMMODATIONS FOR STORE EMPLOYEES**

As part of the new controlled parking plan, our Valley Fair retail partners will be able to purchase preferred parking passes at a rate of \$40 a month, or \$3 a day, for designated employee parking spots in the subterranean Stevens Creek garage or at any of the shopping center’s rooftop levels.

If not purchased by the employer, individual employees may purchase the passes themselves.

Passes can be obtained either at the Valley Fair Parking Office (Located on Level 3 by the Security Office) or by setting up accounts for day / monthly use directly with LAZ Parking.

## **VALET PARKING AND OTHER PARKING OPTIONS**

For those guests who enjoy the convenience of [valet service](#), Valley Fair also offers valet drive-up at the property’s **South Valet Station on Stevens Creek Boulevard**, as well as its **North Valet Station on Forest Avenue**.

Valley Fair also has designated drop-off and pick-up station for **Uber** vehicles (two in each valet), as well as 60 **electrical vehicle charging spaces** in total. These include 14 new ultra-fast Electrify America electric vehicle charging stations.
